

sidbh.me

sidbh.me is a personal portfolio website for myself that aims to provide a platform for myself to post career updates as well as showcasing some of my hobbies.

sidbh.me provides me an online space to advance my career. I can utilize it to post my portfolio to my needs and specifications, and it allows me to easily modify, as needed. The customizability of a personal portfolio site such as sidbh.me is not offered by traditional professional profile sites, where every profile differs only by the text on the page, rather than the design of the site.

Potential Employers

Recruiters or hiring managers at companies I apply to.

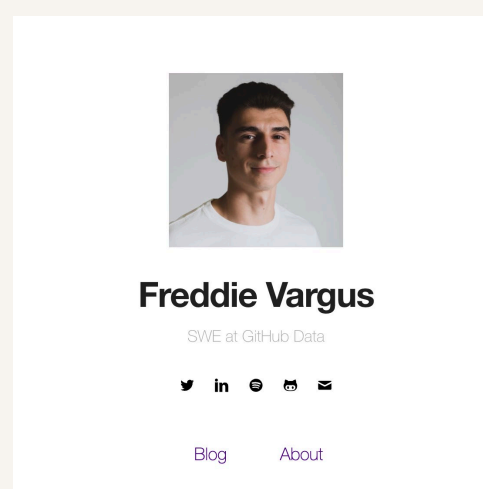

Hobbyists

People looking for insight on what I'm working on.

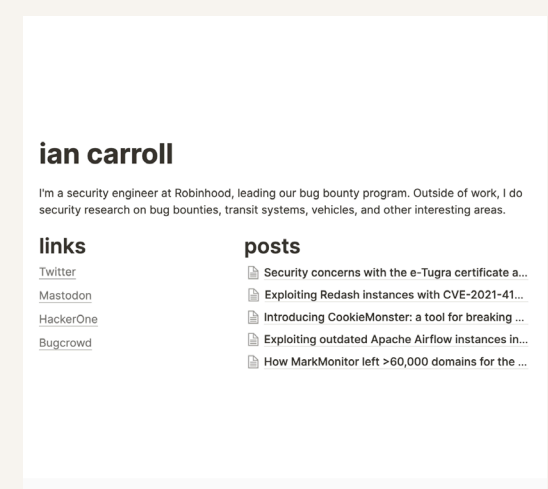

Friends or Family

People who are interested in what I've been up to.
